called today - is putting together proposal on

Enlarger - needs information as soon as possible.

1. Dimensions of beast - how wide, tall, long ? Weight might be useful.
2. Power requirements, venting requirements.
3. They have no facilities for processing 9-inch film. Can we furnish (GFE) such necessary processing equipment ? Should they try to arrange with  SPPL to handle processed rolls ?

STAT

I have promised him this information no later than Wednesday afternoon. I'll phone him with it if you will provide the answers.
